Overview of Hijri Calendar

You can use the Hijri Calendar to schedule your appointments and synchronize them with Outlook calendar. You can also view calendar appointments in multiple views.

Software Features

- Appointment scheduling using Hijri dates
- Includes a "Today" screen item showing Today's Hijri date
- Includes day, month, agenda and year views
- Displays a Holidays view of National and Islamic Holidays according to your regional settings
- View all your appointments in one glance via identifying mark in the month view
- Shares the same Outlook calendar database
- Full synchronization with Outlook calendar

You can browse through your appointments in many views as follows:

View

1. Day
2. Month
3. Year
4. Holiday

Navigation

Schedule New Appointment

To schedule a new appointment

1. Tap **Menu** (قائمة), select **new appointment** (موعد جديد)
2. Enter appointment's information; such as subject, start and end times.
3. Tap **ok**.

Hints

- You can set reminder to notify you in advance of the appointment.
 1. Select Reminder (التذكير) active (فعال).
 2. The default reminder is set 15 minutes before an appointment, select the time when you want the reminder to alert you.
 3. Tap **ok**.
- The scheduled appointments on Hijri Calendar, you can view it on built-in Calendar, and vice versa.
- If you are working in Day view, tap and hold the time slot for the new appointment and then select New appointment (موعد جديد) to have the time entered automatically.
- On the screen of appointment's information, when you tap on the start or end date, you will see pop up calendar has the symbol @, if you tap on it, the date format will be changed to Gregorian (note the figure).
- You can Edit (view, modify, and delete) an appointment:
 1. Tap and hold an appointment.
 2. From the menu, select the operation you want.

The screenshot shows the 'Hijri Calendar' appointment form. It includes fields for subject, location, start and end dates, reminder time, and a 'All day' checkbox. A calendar pop-up is visible for the start date, showing the Hijri calendar with a blue '@' symbol on the 20th of the month, indicating the Gregorian date format.

Month view

- Displays the current day with red border.
- Highlights the weekend days according the selected Regional Settings.
- Displays a blue down arrow to indicate an appointment.

Adjust number of month's days

Sometimes, a very important day like a major Islamic holiday (Hajj, for example) is set by the hosting country, Saudi Arabia. At this time, the calendar may become out of sync with the actual day. You can adjust the number of days for the current and previous month to correct this issue using the following steps:

1. Tap **Menu** (قائمة) and select month's adjustment (تعديل الشهر)
2. A caution message appears to confirm the adjustment, select **Yes** to apply the adjustment and **No** to cancel.

Holiday View

Displays National and Islamic Holidays according to the selected Arabic region in Arabic Windows Mobile settings

To display the holidays for your country

1. Tap  > **Settings** > **System** tab > **In4Mobility Fee Jeibi Ein** > **Locale** tab.
2. From **Region** list, select your country.

Note

- In Month view, the holidays highlighted in fuchsia.
- Displays national holidays in blue color and Islamic holidays in red color.

Synchronization

You can synchronize the stored appointments with your Microsoft Outlook calendar on your desktop and/or Microsoft Exchange Server. For more information about synchronization, please review the ActiveSync help.
