Overview of Prayer Times

Prayer Times is an application designed by Informobility L.L.C to help you easily determine the Muslim prayer times and Qibla (Mecca) direction with respect to your location on earth.

Software Features

Pray on-time no matter where in the world your journeys might take you.

- Pinpoint where you are through a map.
- In the rare case that your city is not among the 1830 cities in 141 countries predefined, you can easily add your city and obtain its prayer timetable.
- To make sure that you pray on-time a reminder voicing the call for prayers (Azan) will be sounded at prayer time.
- You may also opt for an alarm to go off a set number of minutes before each prayer time (also good for non-Muslims trying to plan their meeting times around prayer times in Islamic countries)
- View the prayer times for the whole week.
- Use your favorite Muezzin's voice to remind you that it's time for prayer.
- Away from your home or country, let **In4 Prayer Times** show you the direction of Mecca/Kiblah.
- Make use of an intuitive Arabic/English interface.
- Make sure that the prayer times are as accurate as can be by choosing the appropriate sect and calculation method.

Display Qibla Direction

1. Tap  to display the direction of Qibla/Mecca. Or tap on **Menu > Qibla**.
2. Rotate your device to match compass's directions (North, South, West, and East)
